

Make sure it's a Polvin Fence

The industry leader for PVC Fencing

POST & RAIL FENCING

- Incorporates 125x125mm Posts, 140x38mm Rails. Available in one, two, three or four rails.
- Finished height can be customised to suit, but standard heights for 1, 2 or 3 rail are 1.2m, and 4 rail is 1.5m.
- Suitable for use around stables, front of lot, paddocks etc.

TEMPORARY FENCING

- Fantastic looking, durable, easily erected and removed temporary fencing suitable for marquee dividers, temporary crowd control and many other uses where extra fencing is needed for a limited time.
- Available in various styles and sizes to suit your particular application.

SIGN HOLDERS

- Standard sizes are 2.4 wide by 1.2m high to suit a standard size corflute sign. Can also accommodate a steel sign.
- Height from ground is standard 1 metre.
- All sizes can be made to measure for your particular requirements.
- They are available in either permanently fixed or easily removable styles.
- Signage is easily changed to suit different sponsors or corporate days.

DOUBLE SIDED LANEWAY DIVIDERS

- Double sided running rail suitable for dividing walkways, tunnels.
- Allows horses to safely move in both directions at once.
- Uses Mawsafe running rail to match the rest of your racecourse.

UV Protection

Made with double the industry standard for UV protection and three times the impact strength to suit Australia's harsh climate.

DELUXE BARRIER MESH FENCING

- Available in 2.4m wide panels, 1200mm high and contains 5mm galvanised steel mesh which is powder coated white. All posts will have steel inserts for extra strength. The top rail incorporates the Mawsafe PVC Running Rail, resulting in an extremely strong, sturdy and attractive fence.
- Prices quoted are for Mesh Squares 150mm x 50mm. Other configurations i.e. 50mmx50mm & 100mm x 100mm etc. can also be supplied, pricing available upon request.
- Suitable for parade rings, crowd barriers, mounting yards etc.

STANDARD BARRIER MESH FENCING

- As per Deluxe Barrier Mesh, top rail is a 90x50mm rail instead of the Mawsafe Running Rail.
- Suitable for parade rings, crowd barriers, mounting yards etc.

BARRIER MESH WITH SINGLE OFFSET or DOUBLE OFFSET RAIL

- This style incorporates either one or two offset rails which obviates the need for a separate crowd barrier fence, and besides saving on costs, overcomes the problem of a difficult to maintain strip between two separate fences.
- Suitable for outside running rails and parade rings.

PLACING STALLS

- Incorporates jockey escape hatch and is available in stand-alone or multiple stalls.
- Steel mesh inserts protect adjoining horses from kicks, and advertising banners can be easily attached to or hung over the rails.
- Also uses the Mawsafe barrier rail to provide a smooth safe top rail which matches the rest of your course.

UV Protection

Made with double the industry standard for UV protection and three times the impact strength to suit Australia's harsh climate.
